Dear Ms. Morgenheim,

With reference to your letter dated February 27, 2009, which I have just received re: the screening process in the prison camp, I am in. Below I am providing facts that you may find relevant.

1. I was not the treasurer of the American Patriot PAC on June 7, 2004.
2. It is my understanding that the \$30,000 was returned to SPI and replaced with personal contributions. Since this took place over 5 years ago this is the best as I can remember.
3. It is also my understanding that the SPI bankruptcy received \$25,000 from the RNC which the \$30,000 contribution funded.
4. The American Patriot PAC was closed down in December 2004. I have no records or access to records. If there were any errors, I believe they were corrected in good faith.

Since you have initiated this inquiry, I would like to provide you with additional information that you may wish to investigate.

1. In the Spring of 2006, my firm began providing web development work to the State of Maryland Campaign for Michael Steele for US Senate in 2006. At the time I was the voluntary finance chair

- for the campaign. My firm signed a contract with the campaign to provide these services and we paid for and provided the web server and email hosting through Intermedia.net. Unfortunately, we were never paid for these services. I have receipts for the ~~consulting~~ programming and design labor.
2. In March 2008, I was alerted by Amy Shafer, the finance manager, that the Stake campaign paid a defunct and closed company called Brown Sugar LLC for catering & web development. This LLC was closed 10 months before the payment which was made in December 2006 or January 2007 and reported on the FEC report. This LLC was founded by Michael Stake's sister. This firm never ~~performed~~ performed any web development work and we never used them for catering our events which was run out of our part of the campaign. This money was illegally paid to Michael Stake's sister and falsely reported on the FEC report.
 3. The Stake campaign received ~~but~~ a bill for \$75,000 from the campaign law firm and had the bill for federal ~~etc~~ campaign work billed to the Maryland State party.

4. Certain vendors especially caterers were mandated to be used by Michael Steele for finance committee events. I was later informed that payments ~~were~~ or a percentage thereof were then remitted from those vendors to entities or persons controlled by Michael Steele. Additionally, I was informed in March 2008, ~~that they~~ by Amy Shresta that there were other billing irregularities and she kept copies of the bills as a result.

If you desire to discuss details on the aforementioned item, you may contact my attorney, Sean Vitiano, at 410-962-3962.

Sincerely,
A.B.J.

Any future correspondences should be sent via my attorney to prevent problems here at the camp.
